The contents of this website are for non-commercial individual reference only and may not be used for other purposes or otherwise copied, displayed, downloaded, distributed, modified, reproduced, republished or retransmitted without the express written consent of Kincora Copper Ltd.

### Information subject to change

Information on this website is updated regularly by Kincora Copper Ltd. without notice. However, the information is not intended to be complete and cover all matters and developments concerning the company and its activities and the company cannot guarantee either the currency or completeness of the information at all times and assumes no responsibility in this regard.

### Stock quotes

All stock quotes are delayed at least 15 minutes unless otherwise noted. All stock quotes and historical stock price data are provided by a third-party service provider and are provided for information purposes only and not for trading purposes. Kincora Copper Ltd. makes no representation or warranty regarding the accuracy or completeness of any stock price quotes or historical stock price data and has not verified the adequacy, accuracy or completeness of the information provided on this website. We strongly recommend that you seek independent professional advice before investing in the stock of Kincora Copper Ltd.

### Notice to investors

The information on this website is not intended as a solicitation for funds or an offering of securities and should not be construed or interpreted as such. The information on this website is not intended to modify, qualify, supplement or amend information disclosed under applicable securities legislation of the U.S. or Canada. No securities commission or other regulatory authority in either the U.S. or Canada has in any way passed upon the information on this website and Kincora Copper Ltd. makes no representation or warranty to that effect.

### Caution to U.S. readers

This website references resources in the "Measured" "Indicated" and "Inferred" categories. These are terms defined under National Instrument 43-101 of the Canadian securities regulators. We advise U.S. investors that while these terms are recognized and required by Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. Investors are cautioned not to assume that any part or all of the material in the "Measured" or "Indicated" resource categories will ever be converted into mineral reserves. In addition, "Inferred" resources have great uncertainty as to their existence, and great uncertainty as to the economic and legal feasibility of exploiting these in a mining operation. It cannot be assumed that any part or all of an Inferred resource will ever be upgraded to a higher category. Under Canadian rules, estimates of an Inferred resource may not form the basis of pre-feasibility or feasibility studies except in rare cases. Investors are cautioned not to assume that any part or all of an Inferred resource exists or is economically or legally mineable.

### **Caution regarding forward-looking statements**

Except for historical information contained herein, the statements made in this website respecting our mineral exploration and development activities are forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties, which may cause our actual activities and results of those activities to differ materially from our expectations and forecasts. These risks and uncertainties include, among other things our ability to obtain (i) a current independent technical report confirming the existence of mineral reserves on our property, (ii) project financing, and (iii) all required approvals and permits. In addition, our operations are subject to volatility of natural resource prices including gold and silver prices as well as a number of risks inherent in mining operations. These factors may affect our ability to ever put our project into production, or to sustain the project for any projected mine-life, including projected aggregate sales. Accordingly, readers are cautioned that forward looking information, while informative, should not be unduly relied upon in making an investment decision, and investors should consult with an investment advisor prior to making such a decision.

### **Third Party Links**

Any third-party content posted should not be taken as an endorsement of such information. Links to websites and other resources operated by third parties ("Third Party Information") other than Kincora Copper Ltd. are provided solely as a convenience to the user. We do not control such Third-Party Information and are not responsible and disclaim any liability for the content, products, services or information offered by any third parties. The inclusion of links to such Third-Party Information on the page does not imply endorsement of any content, products or services offered, advertised, endorsed or promoted by any third party, or of any company or person. If you decide to access any Third-Party Information or acquire any third party products or services, you do so entirely at your own risk, and you may be subject to the terms and conditions and the privacy policies imposed by such third parties. Third party sources generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of included information. Although believed to be reliable, management of Kincora Copper Ltd. has not independently verified any of the data from third party sources.
